## **Remit:**

Theatres Trust is the national advisory public body for theatres. We were established through the Theatres Trust Act 1976 'to promote the better protection of theatres' and provide statutory planning advice on theatre buildings and theatre use in England through The Town and Country Planning (Development Management Procedure) (England) Order 2015, requiring the Trust to be consulted by local authorities on planning applications which include 'development involving any land on which there is a theatre'.

We have been previously engaged by the applicant on their wider programme of front of house interventions within the theatre, as well as others within their portfolio across the West End and nationally. A site visit to the Savoy was undertaken in 2023.

The existing bar was fitted in the early 1990s as part of the theatre's post-fire restoration. It is proposed that this will be removed and replaced with a new bar of improved standard of appearance, function and accessibility to better reflect the significance of the building and meet the expectations of audiences. A new stud wall will be inserted to provide a specific storage and preparation area.

The bar fittings do not have any particular historic significance, therefore we have no objection to removal and replacement. Similarly, the new stud wall is a lightweight and reversible intervention which helps improve function.

We therefore support the granting of listed building consent.

Please contact us if we may be of further assistance or should you wish to discuss these comments in further detail.
